

A Global Sourcing Partner for Businesses That Value Reliability

35+ Years of Excellence | 32+ Countries Served | Present Across 4 Countries

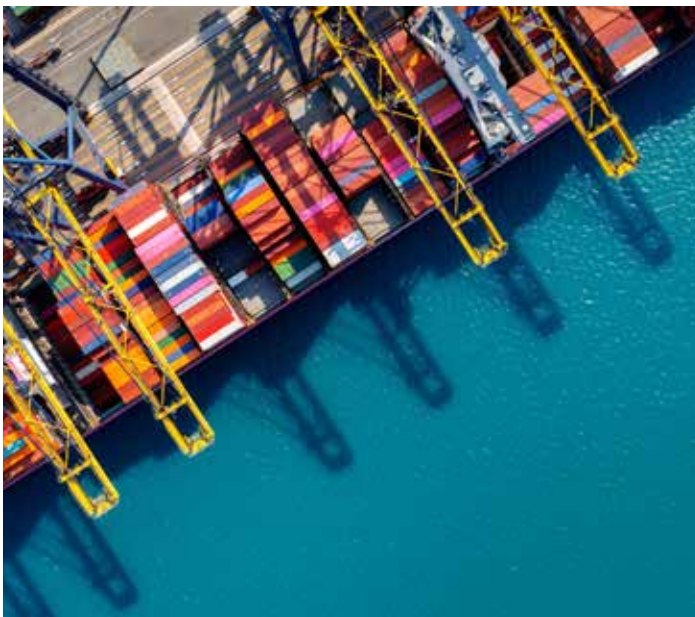

Who We Are?

For more than 35 years, Kalpataru has built its business around one enduring principle: ***Business is built on Trust.***

What began as a paper trading business has grown into a global sourcing company serving businesses across multiple industries and international markets.

Today, Kalpataru Global connects buyers with dependable suppliers across a diverse portfolio.

With offices in **UAE, India, Germany, and Egypt**, our presence across key markets enables us to understand regional requirements, build strong supplier relationships and coordinate international procurement with greater efficiency.

Mission

To simplify global sourcing by connecting businesses with trusted suppliers, dependable supply chains and seamless procurement solutions through one reliable partner.

Vision

To become the world's preferred single window sourcing partner, making international trade more accessible, transparent and efficient for businesses across major industries.

Why Partner with Kalpataru Global

International sourcing demands more than access to products. It requires market understanding, dependable supplier relationships, disciplined execution and the ability to manage the details that keep trade moving.

With more than 35 years of experience, Kalpataru Global brings the below listed capabilities together across a diverse range of commodities and industrial products.

Multi Commodity Expertise

Access To Established Supply Networks

Quality Focus with End-to-End Coordination

Our Product Portfolio

Kalpataru Global offers a diverse portfolio of commodities, industrial raw materials, metals, food products, forest products, paper and packaging materials.

Our portfolio serves manufacturers, processors, distributors, packaging companies and industrial buyers across domestic and international markets. Products are sourced according to defined specifications, quality parameters and application requirements.

Industries we serve includes:

PACKAGING PAPER & BOARD

PRINTING PAPER PUBLICATION

SPECIALITY & FLEXIBLE PAPER

SUSTAINABLE PACKAGING PRODUCTS

FOREST PRODUCTS

FOOD & AGRO

INDUSTRIAL CHEMICAL & RAW MATERIAL

PETROCHEMICAL & RESIDUE

METAL SCRAP
(FERROUS & NON-FERROUS)

RECYCLING

PRIVATE LABEL & MANUFACTURING

Packaging Paper & Board

Our packaging paper and board portfolio covers grades selected for structural strength, converting, printing, handling and transportation requirements.

GSM Range: 30 to 900 GSM

Board Grades

- Folding Box Board
- SBS Board
- Graphic Board
- Duplex Board, Grey Back
- Duplex Board, White Back
- Duplex Board, Kraft Back
- Duplex Board, 200 to 600 GSM

Core & Container Board

- Core Board for Paper Tubes
- Kraft Board for Containers

Liner & Kraft Grades

- Folding Box Board
- SBS Board
- Graphic Board
- Duplex Board, Grey Back
- Duplex Board, White Back
- Duplex Board, Kraft Back
- Duplex Board, 200 to 600 GSM

Functional & Coated Grades

- Food Grade LDPE Coating Board
- VCI Kraft Paper

Printing Paper Publication

Our publication paper range serves educational institutions, corporate offices, government and legal documentation, as well as commercial printing applications.

The portfolio covers lightweight copier grades through heavier paper and board formats.

Product Range

- Maplitho
- Colour Printing Paper
- Copier Paper
- Colour File Board
- Fluorescent Paper & Board, 70 to 300 GSM
- Coated Art Paper & Card, 80 to 300 GSM
- Carbonless Paper
- Thermal Paper
- Newsprint
- Hi Bulk Newsprint Paper

Supply Range: 17 to 300 gsm

Supply Capabilities

- Batch quality verification
- Sourcing from verified paper mills
- Custom bulk packaging for large volume requirements

A close-up photograph showing a pair of hands holding a white, flexible paper bag. The bag has a black horizontal line near the bottom. In the background, several other similar white bags are standing upright on a light-colored wooden surface. The hands are positioned to show the bag's flexibility and shape.

Speciality Paper & Flexible Packaging

Our speciality paper and flexible packaging portfolio is developed for applications where specific functional characteristics are required.

The Range Serves:

FOOD & HYGIENE

TOBACCO

SANITARY PRODUCTS

TEA & BEVERAGES

CONSUMER GOODS

AUTOMOTIVE

Products are produced to defined requirements including basis weight, coating, brightness and barrier performance.

Key Product Characteristics

- ▀ Outstanding strength to weight ratio
- ▀ Clean fibre processing suitable for direct food contact
- ▀ Consistent product uniformity
- ▀ Renewable, high strength fibres
- ▀ Certified biodegradable and compostable grades available

Food Service Applications

- ▀ QSR Clamshells
- ▀ Cold Drink Carriers
- ▀ Bottle Baskets
- ▀ Dry Food Packaging
- ▀ Straw Cartons

Industrial Applications

- ▀ Air Filter Frames
- ▀ Hardware Packers
- ▀ Roll Headers
- ▀ Laminations
- ▀ Partitions

Non Food Packaging Applications

- ▀ Health & Beauty
- ▀ Sporting Goods
- ▀ Gift Boxes
- ▀ Automotive Component Doors
- ▀ Book Mailers
- ▀ File Folders
- ▀ Envelopes

Flexible Packaging Components

- ▀ Cigarette Tipping Paper
- ▀ Cigarette Paper
- ▀ Zipper for Flexible Packaging
- ▀ Aluminium Foil Paper

Sustainable Packaging Products

Our sustainable packaging range features bagasse pulp molded products designed for food service and everyday packaging applications.

Made from molded bagasse pulp, these products combine practical performance with a more sustainable approach to food packaging.

Product Highlights

OIL & WATER RESISTANT

Designed to handle food and liquids while maintaining structural integrity.

SUPER STURDY

Strong construction provides dependable performance during handling, serving and transportation.

NO AROMA MIGRATION

Designed to help prevent the transfer of aromas between the packaged food and the surrounding environment.

OVEN, MICROWAVE & FREEZER SAFE

Designed to help prevent the transfer of aromas between the packaged food and the surrounding environment.

Forest Products

Our portfolio covers hardwood, softwood and fluff pulp grades selected according to the fibre length, brightness and strength requirements of different end use applications.

Product Range

- 🌿 **HARDWOOD PULP**
- 🌿 **SOFTWOOD PULP**
- 🌿 **FLUFF PULP**
- 🌿 **WOOD CHIPS**

We source premium grade pulp from established forestry and processing regions across:

Canada | Australia | UAE | Egypt | Turkey | Sri Lanka | Bangladesh | Africa

Food & Agro

Our food and agricultural portfolio serves manufacturers, processors and distributors across international markets.

The range includes tea, specialty spreads, agricultural commodities and industry grade food materials, supplied in bulk and retail ready formats according to customer requirements.

TEA

Origin: India | Sri Lanka | Kenya

Packaging: Bulk Pack | Retail Pack

Black Tea | Green Tea | Herbal Tea

SPREADS & SPECIALITY FOODS

Pistachio Spread | Pistachio Kunafa | Hazelnut Spreads

AGRICULTURAL COMMODITIES

Rice | Onions | Chillies

FOOD INDUSTRY INGREDIENTS

Starch for the Food Industry

TOBACCO

Raw Tobacco for Cigarette Manufacturing

Quality & Compliance

Sourcing and quality control are maintained against applicable grading, moisture and purity standards. Packaging and export documentation are aligned with relevant food safety and phytosanitary requirements of destination markets.

Industrial Chemicals & Raw Materials

Our industrial raw material portfolio serves manufacturers, processors and industrial users across diverse applications. The range includes specialty and commodity chemicals supplied against defined grade, purity and concentration requirements.

INDUSTRIAL CHEMICALS

- 🌿 Calcium Chloride
- 🌿 Sodium Sulphite
- 🌿 Sodium Nitrate
- 🌿 Hydrogen Peroxide
- 🌿 Methylene Chloride
- 🌿 Ammonia Phosphate
- 🌿 Sodium Bentonite

OTHER INDUSTRIAL MATERIALS

- 🌿 Calcium Chloride
- 🌿 Sodium Sulphite
- 🌿 Sodium Nitrate
- 🌿 Hydrogen Peroxide
- 🌿 Methylene Chloride
- 🌿 Ammonia Phosphate
- 🌿 Sodium Bentonite

Quality & Compliance

Products are sourced against defined specifications relevant to their intended application, with applicable quality verification carried out prior to dispatch.

For chemical products, sourcing, handling, storage and documentation are managed in accordance with the relevant safety and regulatory requirements.

Petrochemical & Residue

Our petrochemical and residue portfolio serves manufacturers, agrochemical processors and industrial end users across domestic and international markets.

Products are supplied against defined quality parameters including purity, moisture content and granulation specifications.

FERTILISER & AGRICULTURAL INPUTS

- 🌿 Urea, Agricultural Grade
- 🌿 Urea, Non Agricultural Grade
- 🌿 Urea Phosphate

SULPHUR

- 🌿 Sulphur Lumps
- 🌿 Sulphur Granules
- 🌿 Sulphur UST

POLYMER GRANULES

- 🌿 LDPE Granules
- 🌿 HDPE Granules
- 🌿 PP Granules
- 🌿 Acrylic Granules

OTHER INDUSTRIAL COMMODITIES

- 🌿 Bitumen
- 🌿 Aviation Fuel

Supply Standards

Applicable sourcing, handling and storage processes are aligned with relevant safety and regulatory requirements for controlled and hazardous commodities.

Metal Scrap (Non Ferrous & Ferrous)

We supply a diversified range of ferrous and non ferrous metals, covering recovered scrap grades, refined ingots and specification grade engineering materials.

Our metal portfolio serves manufacturers, foundries and industrial buyers across domestic and international markets.

Non Ferrous Metals

ALUMINIUM

- Aluminium Wire
- UBC
- Aluminium Alloys

COPPER

- Copper Cathode
- Mulberry

ZINC

- Zinc Ingots

COBALT

- Cobalt Oxide Powder

Ferrous & Engineering Grades

STEEL

- High Durable Grade Steel
- 30CrMo04 Grade for High Engineering and Defence Applications

Recycling

Our recycling division deals in ferrous and non ferrous scrap materials sourced from industrial, commercial and post consumer streams.

Through established relationships across the sourcing chain, we support processors and manufacturers with consistent material grading, documented quality control and dependable supply volumes.

Product Range

PAPER SCRAP

- ✔ OCC
- ✔ DS OCC Grades

ALUMINIUM SCRAP

- ✔ Aluminium Wire Scrap
- ✔ Aluminium UBC Scrap

COPPER

- ✔ Copper Scrap

TYRE RECYCLING

Private Label & Custom Manufacturing

For businesses looking to develop products under their own brand or source products to specific requirements, Kalpataru Global provides private label and custom manufacturing solutions through its established sourcing network.

From product sourcing and customisation to production coordination and final supply, we help turn specific requirements into market ready products.

Whether you are looking for a dependable source for an established product, exploring a new market, developing a customised requirement or building a long term supply relationship, Kalpataru Global brings together the network and capabilities required to support international procurement.ready products.
